

SEVENTEENTH SPE IMPROVED OIL RECOVERY SYMPOSIUM

www.SPEIOR.org

24-28 APRIL 2010
RENAISSANCE HOTEL
TULSA, OKLAHOMA

Dear Prospective Exhibitor:

You are invited to join us April 24-28, 2010 at the SPE Seventeenth Symposium on Improved Oil Recovery. The conference will be located at the Renaissance Tulsa Hotel and Convention Center. The hotel offers 20,000 sq. ft. of exhibit space and is located near shopping, dining, and entertainment sites.

The Society of Petroleum Engineers is making a concerted effort to draw an even larger audience with many new technologies during this period of high energy demand.

We are also planning several events which will draw attendees to the exhibit area on more than one occasion. We are in the process of planning one evening social event and two luncheons to keep attendees engaged and networking. As in the past, IOR posters will be available for viewing and a drawing will be held for some very nice door prizes. Also you have the opportunity to publicize your company by sponsoring coffee service or other exhibitor-related events and in addition to the exhibit floor, there is a lounge area where attendees can gather for coffee and conversation.

We believe these activities and others will increase traffic and participation in the Exhibit Hall. But, the true measure of success for the Symposium will be your participation as an exhibitor at this conference. We hope you consider the opportunity to exhibit with us, and we look forward to hearing from you. Please contact Connie Hubbard at 918-495-2712 for more information or you can visit the website at www.speior.org see the floor plan, and to download the contract and other information.

Sincerely,

P. Douglas Storts
Exhibits Chair
